

Development Policy

Sponsorship, Grants & Foundation Fundraising

The Art Gallery of South Australia will seek to supplement its South Australian Government funding by securing financial and other support from individuals, granting bodies and the corporate sector.

In implementing this policy, the Gallery will:

- maintain and develop its relationships with donors, members, granting bodies, sponsors and other supporters;
- create a strategic plan for sponsorship and funding development that incorporates objectives, opportunities, resourcing implications and an evaluation methodology for each project;
- create and implement clearly co-ordinated development strategies which encompass the activities of the Art Gallery of South Australia Foundation;
- encourage at every opportunity a culture of support and philanthropy for the visual arts within South Australia.
- operate in accordance with community expectations and standards that are appropriate to the Art Gallery.
