

Loans Policy

Inward and outward loans will be in the best interests of the Art Gallery of South Australia and the public it serves. Loans are subject to the Gallery's loan guidelines.

Objectives

The objectives of the Gallery's loans policy are:

- to provide access to the Gallery's collections through an active loans and travelling exhibition program while having due regard to the care and safety of works of art;
- to supplement the Gallery's collection with inward loans in accordance with the Gallery's Acquisition Policy;
- to support the Gallery's exhibition program with inward loans.

Strategies

In implementing this policy the Gallery will:

- maximise the number of outward loans from the Gallery's collections by assessing loan requests on a case by case basis;
- increase access to the Gallery's collections by extending where suitable the period of long term loans, with due consideration to conservation requirements;
- continue to develop the Gallery's role as a significant provider of travelling exhibitions, locally, nationally and internationally;
- seek the loan of works of art that complement the Gallery's collections;
- seek loans for the Gallery's exhibition program.
